

The tables below provide feedback on attributes that are measured across all stations. If the candidate's performance is below the Acceptable Competence Level (ACL) for an attribute, it will be indicated as "Below" or if it is more than 10% below the ACL it will be marked as "Significantly Below" and similarly for "Above" and "Significantly Above". A designation of "At" indicates that the candidate scored within 1% of the ACL. Your performance was below the ACL on XX out of 10 stations on this exam. Please refer to the study guide and examination content on the website for further information on examination emphasis and scoring.

**TABLE 1: Candidate Performance per Station Type**

Stations	History Stations (2 Stations)	Physical Examination Stations (2 Stations)	Multiple Directed Stations (2 Stations)	Combined History and Physical Examination Stations (2 Stations)	Informed Consent Station (1 Station)	Chiropractic Technique Station (1 Station)
Percentage of Exam	18% - 22%	18% - 22%	18% - 22%	18% - 22%	8% -12%	10% - 14%
Candidate Performance	At	Significantly Below	At	Below	Significantly Below	Significantly Below

**TABLE 2: Candidate Performance per Exam Content Area**

CONTENT AREA	PERCENTAGE OF EXAM	CANDIDATE PERFORMANCE RELATIVE TO THE ACL
<b>History Taking</b> Obtained a focused and relevant History of a patient's complaint	14% +/- 2%	Significantly Below
<b>Physical Examinations</b> Correctly performed focused and relevant physical examinations	21% +/- 2%	Significantly Below
<b>Chiropractic Technique</b> Correctly performed setup for adjustment techniques	8% +/- 2%	Significantly Above
<b>Diagnosis</b> Interpreted history and/or physical exam findings and arrived at the correct diagnosis of the patient's complaint	9% +/- 2%	Below
<b>Patient Management and Treatment Plans</b> Recommended appropriate management and treatment plans based on the concerns and diagnosis of the patient's problem(s)	16% +/- 2%	Below
<b>Rationales for Diagnosis and Treatment</b> Explained to the patient the reasons for the diagnosis and, where applicable, the treatment plans	5% +/- 2%	Significantly Below
<b>Legal, Ethical and Organizational Practice Standards</b> Properly obtained informed consent and appropriately replied to patient's legal, organizational and ethical questions	7% +/- 2%	Significantly Below
<b>Communication</b> Asked questions in an organized and concise manner; Communicated information at an appropriate comprehension level for the patient; Provided accurate and detailed information; Responded and recognized patient feedback	14% +/- 2%	Significantly Above
<b>Professionalism</b> Optimized Patient comfort and privacy, and was compassionate and respectful towards patient	5% +/- 2%	Significantly Above

Example Examiner Comments: "Candidate was disorganized and asked too many irrelevant questions"; "Candidate performed correct exams but did not do them properly or only did unilateral testing"; etc..
